

SAJIDEEN HASSAN

Project Coordinator

sajideenhassan12@gmail.com | +92 334 863 1680 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SKILLS

Coordination & Communication: Client Coordination, Stakeholder Management, Cross-team Collaboration, Documentation & Reporting, Task Tracking, Project Updates

Project Management: Sprint Planning Support, Agile Workflows, Delivery Tracking, Multi-tasking, Problem Solving

Tools & Platforms: Git, Jira, Slack, Figma, Vercel, Hostinger, Lovable, n8n, Claude Code, REST APIs,

Programming Languages: JavaScript, Python, TypeScript, SQL, C++

Databases: PostgreSQL, MongoDB, MSSQL, SupabaseDB

EXPERIENCE

Management Lead | [ISPR Internship](#)

July 2025 – Aug 2025

- Managed end-to-end communication workflows, ensuring timely and accurate information flow across departments.
- Coordinated team activities and tracked task completion to meet project deadlines consistently.
- Supported cross-functional collaboration by acting as the central point of contact for operational updates.

Project Manager | [TechTideCo](#)

Nov 2025 – May 2026

- Coordinated cross-functional delivery of scalable web applications, ensuring alignment between client requirements and engineering output.
- Tracked project milestones and maintained updated documentation across active development cycles.
- Facilitated communication between stakeholders and developers to resolve blockers and keep timelines on track..
- Participated in sprint planning sessions, supporting delivery cycles and keeping teams organized across tasks.

Project Manager Intern | [TechTideCo](#)

Aug 2025 – Nov 2025

- Assisted in tracking and documenting integration tasks, ensuring REST API connections were delivered on schedule.
- Coordinated communication between team members to resolve data handling and performance bottlenecks efficiently.
- Maintained structured updates on project status, contributing to smooth handoffs between development phases.

Web Developer Intern | [IT Club](#)

Jan 2025 – Mar 2025

- Conducted structured research on information systems and digital literacy frameworks to support club initiatives.
- Improved data processing workflows through systematic analysis and documentation of findings.

PROJECTS

Brotchun Website | [Next.js](#), [React](#), [Tailwind CSS](#), [Animation Libraries](#) [\[Live Link\]](#)

- Delivered a high-performance, responsive web application with smooth user interactions and fast client-side rendering.
- Coordinated UI/UX design decisions to align with client expectations and user engagement goals.
- Implemented modern layouts and animations to enhance the overall product experience.

AuraSpeech Platform | *Python, FastAPI, Microsoft Edge TTS* [\[Live Link\]](#)

- Built an AI-powered text-to-speech platform with customizable voice output and optimized backend performance.
- Managed API design and server performance tuning to deliver fast, reliable audio generation responses.

Inventory Management System | *MERN Stack, Chart.js, Recharts* [\[Live Link\]](#)

- Designed and delivered a full-stack inventory tracking system with real-time data visualization dashboards.
- Integrated secure authentication and OTP-based access control for multi-user environments.
- Implemented barcode scanning and analytics features to support operational decision-making.

EDUCATION

BSc Software Engineering | [Lahore Garrison University — DHA Phase 6, Sector C](#) Aug 2021 – June 2025

CGPA: 3.0
